FOR IMMEDIATE RELEASE
9 AM EST/ June 23, 2011

Atlanta, June 23 2011

The Arab Air Carriers Organisation (AACO) and Innovata announced today a major upgrade of Innovata's dynamic and interactive route network mapping service for display on AACO's website – www.aaco.org

Innovata is providing AACO with the latest release of its market leading mapping service which has been specially configured for AACO so that all destinations, direct routes, online and interline connections, and a comprehensive timetable display for all 25 member airlines are dynamically plotted and displayed for users searching and querying the networks and schedules of AACO member airlines.

The latest map version from Innovata provides users with a range of feature and functionality upgrades including improved zoom and pan capabilities together with links through to Google maps for all airports featured in the map displays.

Richard Thorne – Managing Director of Aviation Business at Innovata said *"we have had a long standing relationship with AACO and we are delighted to have the opportunity to provide AACO with our mapping service to help promote their members' route networks to a wider audience through these highly visual map displays"*.

Abdul Wahab Teffaha, Secretary General of AACO said *"Innovata is an impressive forward-looking company and is constantly searching for ways to help their customers and partners,*

Director, Industry Affairs of Innovata, Alistair Rivers with Secretary General of AACO, Mr Abdul Wahab Teffaha

and as a long standing partner of Innovata, AACO has certainly benefitted from their approach to business. Indeed we are currently in discussions with Innovata on a number of other initiatives which I am confident is going to result in further benefits to AACO and more specifically to our members. Meanwhile, I am looking forward to seeing the feedback and reaction to the innovative mapping and timetable service that is now live on our website."
